Evaluation Methodologies

The named digital asset has been formally evaluated using the following methodologies:

- Screen reader testing
- Keyboard testing
- Visual inspection
- Code inspection
- Automated scan

Environments

The named digital asset has been formally evaluated using the following environments:

- Windows 10
- Chrome Browser
- NVDA screen reader
- iOS 15
- Safari Browser
- VoiceOver screen reader

Findings

After extensive evaluation and validation, the swandolphi3stg.wpenginepowered.com website, for the defined scope, were found to have 0 accessibility issues for both desktop and mobile environments per WCAG 2.2 AA.

Verification

For verification of this certification's authenticity, contact:

Email: certification@accessible.org

Include the URL and date of certification in your verification request. Verification requests will receive a response within 1-3 business days.

Accessible.org will confirm and verify the issuance of this certification for a period of one (1) year from the date of issuance. After this date, the certificate holder will need to have the digital asset re-audited to be eligible for newly issued certification and verification. This verification limitation does not change the fact that any modifications to the digital asset immediately affect the certification's applicability, as detailed in the Future Changes Disclaimer.

Future Changes Disclaimer

This certification applies only to the digital asset as evaluated as dated on this document. Any subsequent changes, updates, modifications, or additions to the website (including content, design, functionality, or structure) made after the date of evaluation are not covered by this certification.
